High Security Cluster Box Units (CBUs) – USPS Approved

Type 1 CBU

Type 2 CBU

Type 3 CBU

The "F" series CBU is designed to meet USPS Security Standards. These high security USPS approved Cluster Box Units are made entirely of heavy duty extruded aluminum and stainless steel hinges and are accessed from the front through an easy-opening master door gate assembly with a built-in hold open device. Enjoy added security features such as hardened locks for individual tenant compartments as well as thicker aluminum for the units outer cabinet and doors. CBU units come in 4, 8, 12, 13 and 16-door address models. They include outgoing mail receptacles and Parcel Lockers in one durable and self-contained unit, mountable on the included pedestals.

- USPS Approved (Postal Certified)
- Meets or exceeds newest USPS Security Standards
- F-Series CBU was designed to reduce mail theft and vandalism with stronger tenant doors, minimal pry points, improved outgoing mail slot
- Pedestal is included in prices listed
- Robotically welded cabinet/hood seams
- Constructed of high grade stainless steel and aircraft aluminum
- Stainless steel hardware and hinges
- Tenant and parcel doors constructed with reinforced corners and 360° wrap-around hinges
- Master postal door designed to prevent prying with interlocking overlapped seams
- $\frac{1}{16}$ " thick welded aluminum cabinet and $\frac{1}{8}$ " to $\frac{1}{4}$ " thick aluminum doors
- Tough, scratch and corrosion resistant surface/finish. Rugged, weather-proof powder-coat finish resists scratching and vandalism
- 5-pin cylinder cam locks w/spring loaded covers
- Three keys per door are also included
- Quick release door lock latch
- Available in six sizes and styles
- Each CBU includes a parcel locker equipped with a USPS 1172-910 lock and an outgoing mail compartment door with slot
- Front loading, easy-to-use free standing unit
- Standard colors: Sandstone (shown), Postal Grey, Dark Bronze, Black, Forest Green and White available for an additional charge

Type 6 CBU

Decorative CBU Mailboxes designed to meet USPS Security Standards. These high security USPS approved Cluster Box Units are made of heavy duty extruded aluminum and stainless steel hinges and are accessed from the front through a master door gate assembly with a built-in hold open device. All USPS approved mailboxes, parcel lockers and outgoing mail compartments enjoy added security features: hardened locks for individual tenant compartments as well as thicker aluminum for the units outer cabinet and doors. CBU units come in 4, 8, 12, 13 and 16-door address models, offering individually lockable front access doors made of extruded aluminum. They include outgoing mail receptacles and Parcel Lockers in one durable and self-contained unit, mountable on the optional pedestals or a base of your choice.

- USPS Approved (Postal Certified)
- Meets or exceeds newest USPS Security Standards
- F-Series CBU was designed to reduce mail theft and vandalism with stronger tenant doors, minimal pry points, improved outgoing mail slot
- Pedestal is included in prices listed
- Robotically welded cabinet/hood seams
- Constructed of high grade stainless steel and aircraft aluminum
- Stainless steel hardware and hinges
- Tenant and parcel doors constructed with reinforced corners and 360° wrap-around hinges
- Master postal door designed to prevent prying with interlocking overlapped seams
- 1/16" thick welded aluminum cabinet and 1/8" to 1/4" thick aluminum doors
- Tough, scratch and corrosion resistant surface/finish. Rugged, weather-proof powder-coat finish resists scratching and vandalism
- 5-pin cylinder cam locks w/spring loaded covers
- Three keys per door are also included
- Quick release door lock latch
- Available in six sizes and styles
- Each CBU includes a parcel locker equipped with a USPS 1172-910 lock and an outgoing mail compartment door with slot
- Front loading, easy-to-use free standing unit
- Color Options: Sandstone (shown), Postal Grey, Dark Bronze and Black. Forest Green and White are available for an additional charge.

Decorative Stucco Column CBU Mailboxes (USPS Approved)

Type 1 CBU

Type 2 CBU

Type 3 CBU

Designed for cluster box units, these ready-to-install decorative stucco columns conveniently upgrade commonplace commercial mailboxes into customized neighborhood centralized mail delivery centers. Simply install the CBU mailbox and pedestal and slip the stucco column over for a custom high end mail center appearance.

Specifications and Features

- Turn your neighborhood's centralized CBU mail delivery center into a focus point and gathering area with our high quality Decorative Stucco Column Cluster Mailbox. These CBU and commercial mailboxes are USPS Approved and Postal Certified and provide the highest level of secure and safe mail access 24 hours a day.
- New F-Series CBU Mailboxes and Decorative Stucco Column. Pedestal is included
- USPS Approved and Postal Certified
- Front Loading Style (Everything including all mail is accessed from the front)
- Made and offered ready to install stucco column is manufactured from an easy to handle foam core with an exterior grade service
- Decorative Stucco Column offered in four color choice options: Burnt Tuscan, Sandstone, Slate Gray and Unpainted. Cluster mailbox colors available in sandstone, postal grey, dark bronze, black, forest green and white
- This prefabricated column is extremely durable and substantially safer than older style steel stud or cinder block mailbox columns. The special foam core will collapse upon high impact to reduce injuries due to collisions
- Free Shipping/Freight
- For more product information please contact National Mailboxes' customer service center at Toll Free 1-800-676-5161

Horizontal Wall Mount Mailboxes (USPS Approved for Replacement)

**WHOLESALE
PRICES**

National Mailboxes provides USPS approved horizontal mailboxes from the H1400 (front load) and H1500 (rear load) Commercial Mailbox Unit Series. Constructed of heavy-duty aluminum, horizontal mailboxes can also be used for private party access and distribution. Our commercial mailbox unit series is manufactured entirely from heavy gauge thick aluminum with specialized anodized aluminum/silver finish for corrosion-rust proof resistance. The H1400 (Front Load) and H1500 (Rear Load) Horizontal Mailbox Series is designed for a number of different applications. Refer to website for additional photos.

H140035FL 35-Door Unit

Specifications and Features:

- Apartments, condominiums, commercial and office buildings, colleges and schools
- Standard "A" size (5"H x 6 $\frac{3}{4}$ "W) doors, available 3, 4 or 5 doors wide and 5, 6, or 7 doors high.

New Max Height 4C Horizontal Wall Mount Mailboxes 56½" High (USPS Approved)

National Mailboxes offers the broadest line of front-load USPS Approved STD-4C mailboxes and accessories on the market today. Front-loading mailboxes include a Master Loading Door prepared for the USPS Arrow Lock providing easy access to all compartments simultaneously by the carrier. Choose from 14 pre-configured modules that meet or exceed all security requirements of the USPS STD-4C regulation for front-loading wall-mounted mail receptacles. The Max Height Suite is designed to ensure a maximum number of USPS compliant tenant compartments are available. Modules containing all tenant doors are for private delivery only.

- Rugged, corrosion and weather resistant powdercoat finish resists scratching and vandalism
- Constructed of heavy gauge aluminum and 300 series stainless steel components for superior strength, corrosion resistance and exceptional outdoor durability
- Solid aluminum mail slot frame similar to High Security CBU design protects adjacent customer compartment and collection compartment
- Unique double-locking parcel locking mechanism design for added mail package security
- New USPS-1172 910A lock with three (3) keys
- Number decals up to 3 digits or engraved identification up to 6 characters
- Exclusive multi-unit connector kit hardware included with every mailbox model for convenience and ease of installation

Surface Mount Collars for New 4C Horizontal Wall Mount Horizontal Mailboxes

Don't have the wall depth to completely recess your versatile 4C mailbox suites? Not to worry, National Mailboxes has a brand new collar for the entire versatile 4C product line. This new collar allows you to mount your 4C mailbox directly onto your wall. No wall cut necessary! This heavy gauge aluminum collar ensures the mail system achieves that desired sleek, finished look while easily attaching directly to the mailbox module. Ideal for settings with limited wall depth, this USPS Approved solution provides greater flexibility in your mailbox placement and installation.

- Surface-mount collars for 4C versatile mailboxes are the perfect accessory when a surface-mount application is needed
- Easy to install – no wall cut required
- 4C mailboxes sold separately
- USPS Approved
- Heavy gauge aluminum construction
- Available in Antique Bronze, Black, Dark Bronze, Gold Speck, Postal Grey, Sandstone, Silver Speck, and White

Rack Ladder Wall Mount Horizontals (For Private Use/Access)

H2200 Series Rack Ladder System

(Rear-loading horizontal rack ladder mailboxes for Private Use/Private Access) National Mailboxes' horizontal rack ladder mailboxes have ¼" thick extruded aluminum doors with a durable powder coated silver finish. Each door of these secure metal commercial mailboxes includes a five-pin cylinder cam lock with two keys. The H220 series has open backs (rear covers H2251 are available as an option upon request) and are constructed of 20 gauge steel. The units have the same outside dimensions. These secure metal commercial mailboxes are designed to be installed between rack ladders (H2200). The H2200 Series Rack Ladder System supports five mailbox units to form a column of mailboxes. These units can be accessed by the USPS when used in Rotary Mail Centers.

H2201 1 Door Rack Ladder Unit

H2202 2 Door Rack Ladder Unit

H2204 4 Door Rack Ladder Unit

H2208 8 Door Rack Ladder Unit

H2270 1 Door Parcel Locker

H2272 2 Door Parcel Locker

H2212 12 Door Rack Ladder Unit

H2280 Drop Box 1 Compartment

H2282 Drop Box 2 Compartments

H2200 Series Parcel Lockers

(USPS Approved and for Private Use/Private Access) National Mailboxes H2200 series parcel lockers offer tenants a convenient way to receive packages on site and are fit with a two key security system. When the USPS or an individual delivers a parcel to the locker, a parcel locker key is placed in the recipient's mailbox. Once the recipient opens the parcel locker, the key is automatically retained in the lock until it is removed with a control key. The units have ¼" thick extruded aluminum doors with a durable powder coated silver finish and are equipped with a hinged rear door which allows access from the rear. Parcel lockers are designed to fit into the rack ladder and data distribution systems and Free-Standing Mail Centers.

H2200 Series Drop Boxes

(For Private Use/Private Access) National Mailboxes H2200 series drop boxes have a ¼" thick extruded aluminum solid front with a durable powder coated silver finish. The one compartment drop box (H2280) has a 16"W x ¾"H mail slot. The two compartment drop box (H2282) has two 9"W x ¾"H mail slots. Drop boxes have a 4"H rear panel to contain the mail. Locking rear covers (H2285) are available as an option upon request. Drop boxes are designed to fit into the rack ladder and data distribution systems and Free-Standing Mail Centers.

Freestanding Rotary Mailbox Enclosures for Private Use/Access

H3100 Rotary Mailbox Enclosure

H3150 Rotary Mailbox Enclosure

Inner cabinet rotates 180 degrees for mail distribution

Constructed of 16 gauge steel, National Mailboxes H3100 series Rotary Mailbox Enclosures feature a vinyl finish available in five contemporary colors. Aluminum style Rotary Mailbox Enclosures (H3100) are designed to accommodate a combination of five aluminum rack ladder system mailboxes and data distribution system boxes. Brass style Rotary Mailbox Enclosures (H3150) are designed to accommodate a combination of two brass style rear loading mailbox units. To operate, the user unlocks the unit and rotates the inner cabinet 180 degrees so that the rear of the mailboxes are facing the front. After distributing the mail, the inner cabinet is rotated back 180 degrees to the tenant access position. A matching rear cover (H3125) is available as an option upon request. Heavy duty Rotary Mailbox Enclosures are ideal in locations where a secure and professional mailbox system is desired.

H3100 Rotary Mailbox Enclosure

- Aluminum style (for aluminum rack ladder mailboxes and data distribution boxes – order separately.
- 30"W x 74"H x 24"D
- 225 lbs. (without mailboxes)

H3150 Rotary Mailbox Enclosure

- Brass style (for brass rear loading mailboxes – order separately. 30"W x 74"H x 24"D

Mail Chest Mailboxes (USPS Approved)

**WHOLESALE
PRICES**

National Mailboxes has available a varied assortment of mail chests that work perfectly as commercial or residential mailboxes and are USPS approved for curbside delivery. These modern mailboxes are made entirely of rust-proof aluminum and feature both a front and rear access locking door. Unlike common residential mailboxes you need not worry again about placing important outgoing mail (checks, bills etc.) in these mailboxes. These modern residential mailboxes feature an outgoing mail tray that is safe and secure. Another useful feature is that a master postal lock is not required. Keep your mail where it should be – in your mailbox. Call us today for more information at 1-800-676-5161.

Specifications and Features:

H4350 Mail Chest

- (USPS Approved or for Private Use / Private Access)
Made entirely of aluminum, National Mailboxes USPS approved H4300 series mail chests feature both a front and rear access locking door. Mail is deposited through a non-locking access panel on the front. Each unit includes an outgoing mail tray, a lock with two keys on each door (keyed alike) and an adjustable red signal flag. Units are available in a black, green, silver or white powder coated finish. Mail chests are approved for USPS curbside mail delivery. Master postal lock not required. For a smaller version of this product, see roadside mailboxes.

H4365 Bolt Mounted Pedestal (Sold Separately)

H4385 In-Ground Pedestal (Sold Separately)

- Mail chests can be mounted on the optional bolt mounted (H4365) or in-ground mounted (H4385) aluminum pedestals or a base of your choice. Mail chests can also be mounted in columns, masonry or walls.

H4367 Custom Engraved Placards

- 8 ½"W x 2"H custom engraved self-adhesive placards are available as an option on request.

H4315 Newspaper Holders

- Made of heavy duty aluminum, National Mailboxes newspaper holders are a unique option for mail chests. Each unit has a solid back and includes mounting hardware to easily attach to the bottom of mail chests and to the top of pedestals and spreaders. Newspaper holders feature a durable powder coated finish available in four contemporary colors.

H4382 and H4383 Spreaders

- Made of heavy duty aluminum, National Mailboxes spreaders are an ideal way to mount multiple mail chests to pedestals. Optional two-wide (H4382) and three-wide (H4383) spreaders easily attach to standard pedestals (H4365 and H4385).

H4388 Non-Locking Thumb Latches

- Non-locking thumb latches (H4388) are available as an option upon request.

H4316 Replacement Flags

- Made of heavy duty aluminum, mail chest replacement signal flags have a durable red powder coated finish and include stainless steel mounting hardware.

Letter Locker Residential Locking Mailboxes (USPS Approved)

**WHOLESALE
PRICES**

National Mailboxes' letter locker mailboxes are constructed of the best quality craftsmanship and built with the best quality materials in the industry today. Constructed of heavy duty gauge electro galvanized steel for added strength and durability. Provides decades of extended use and extended life. Various high quality weather resistant powder coated finishes available to select from include: black, gray, bronze, tan, and white.

Specifications and Features:

- Our postal use letter locker mailbox is perfect for smaller businesses that require both secure or locked incoming and outgoing mail. These units are designed for commercial use and are not meant for residential use or applications.
- Our postal use letter locker mailbox requires local postmaster approval and comes with the front door prepared for the USPS postal lock, which the post office installs-free of charge (if they approve of it).
- Our standard letter locker mailbox comes with a pull down type front door which doesn't require the postal carrier to have a key. This unit also includes a secure chute that prevents a person from reaching in and stealing your mail.
- Both type letter locker mailboxes include three tenant lock options: Level 1 is the standard 5-pin hook cam lock; Level 2 is the new Claw Lock which has an 11 gauge stainless steel cam that presses up on lift plate, rotating four stainless steel claws into the door bracket receiver (which quadruples the security of the lock); Level 3 uses the exact same Claw Lock design with a high security dead bolt lock which is the highest in security.
- Additional charges do apply for the Claw Lock and Claw Lock with Medeco dead bolt options.
- National Mailboxes' letter locker mailboxes are offered with optional in-ground mount pedestals or concrete pad surface mount pedestals.
- Optional spreader plates are also offered for multiple mailbox mounting.
- Our standard letter locker mailboxes are USPS Approved and Postal Certified and do not require the USPS Postal Arrow Lock.

Letter Locker Collection Boxes

National Mailboxes Letter Locker Collection Boxes are ideal for big institutions that receive a high mail volume and that use the standard USPS mail totes, such as universities, airports, schools, medical facilities and government agencies. These pedestal style collection boxes are a great fit for customers who handle large amounts of incoming or outgoing mail. The US Postal Service will place a mail tote or bin filled with incoming mail in the collection box while removing the existing bin of outgoing mail. Our letter lockers are prepared for the USPS lock for mail carrier access and require USPS approval. Made of heavy gauge electro-galvanized steel. Several powder coat finish colors are available including gray, bronze, black, tan and white.

Single Letter Locker Collection Box

- Holds one standard size USPS mail tote/bin
- Front door prepared for USPS lock. Also available for private use/access – extra charge for a second private commercial lock
- Rear door comes with 5-pin cylinder cam commercial tenant lock with two keys
- Select from a surface mount pedestal or in-ground pedestal. Pedestals sold separately

HLL1 Single Letter Locker Collection Box

Double Letter Locker Collection Box (Single Door)

- Holds two standard size USPS mail totes or bins
- Single front door prepared for USPS lock. Also available for private use/access – extra charge for a second commercial lock
- Single rear door comes with 5-pin cylinder commercial tenant lock with two keys
- Select from a surface mount pedestal or in-ground pedestal. Pedestals sold separately

HLL2COL Double Letter Locker Collection Box with Single Door

Double Letter Locker Collection Box (Double Door)

- Holds two standard size USPS mail totes or bins
- Double rear doors come with 5-pin cylinder cam commercial tenant lock with two keys
- Single large front door prepared for USPS lock. Also available for private use/access – extra charge for a second commercial lock
- Select from a surface mount pedestal or in-ground pedestal. Pedestals sold separately.

Ballot Box Collection Vaults

The Ballot Box Collection Vault from National Mailboxes is a safe and secure receptacle for collecting and storing ballots or other letter-sized items. Its narrow, slanted mouth allows for easy drive-by or walk-up ballot drop-offs while protecting against weather and theft. It is ideal for use by municipalities, counties, and states to help conduct tamper-proof elections.

Specifications and Features

- Rear locking access door for ballot retrieval.
- Access door keys included.
- Secure posilock on access door resists pry attacks.
- Made of 16-gauge galvanized steel.
- Sturdy, full welds for strength.
- Stainless steel hinges.
- Freestanding installation. Can be bolted to the ground for theft and vandalism deterrence. False bottom is included to cover bolts inside the vault.
- Commercial grade powder coat finish resists rust.
- Available in black or white.

Data Distribution Boxes (For Private Use/Access)

H2406 6 Door Data Distribution Box

H2404 4 Door Data Distribution Box

H2402 2 Door Data Distribution Box

H2401 1 Door Data Distribution Box

If you're looking for locking mailboxes for sale, then look no further than National Mailboxes. The National Mailboxes H2400 series data distribution box system of cast aluminum mailboxes each have ¼" thick extruded aluminum doors with a durable powder coated silver finish. Each door includes a ¾" High door slot, a five-pin cylinder cam lock with two keys and is hinged horizontally at the bottom. Alternative locking systems are available. Doors are available without slots upon request. The compartments have open backs (rear covers H2451 are available as an option upon request) and are constructed of 20 gauge steel. All units have the same outside dimensions. Every aluminum distribution box is designed to be installed between rack ladders (H2400). The rack ladders support five units to form a column of boxes. Each aluminum distribution box can also be used in Free-Standing Mail Centers.

H2467 Custom Engraved Placards

3" W x 7/8" H custom engraved self-adhesive placards are available as an option upon request.

Key Control Cabinets

AF Single- and Two-Key storage cabinets provide a centralized, secure location for organizing large numbers of keys belonging to many people. Locking key cabinets include all components for a key control system in which all keys are organized and attached to numbered tags hung on slots with numbers corresponding to the tags inside the key storage cabinets. When the key is loaned, a tag with the person's name, the date and the key number is hooked to the slot corresponding to the loaned key inside the key control cabinets.

SINGLE-TAG KEY CONTROL CABINETS (DOUBLE-TAG KEY-CONTROL CABINETS ALSO AVAILABLE, PLEASE CALL FOR DETAILS.)

Mail Sorters

**CALL FOR
WHOLESALE
PRICING**

National Mailboxes offers the widest selection of mail sorters in the USA. These mail sorters are adjustable, durable, and have very spacious pockets. Our heavy duty solid steel metal mail sorters are ideal for commercial, industrial and office environments including production mail centers as well as casual office environments. Our high quality and crafted mail sorters offer spacious adjustable height pockets for departments or personnel who tend to receive large amounts of mail. Closed backs or open back style mail sorters are available. National Mailboxes' all steel metal mail sorter line is offered in eight frame sizes from 12" wide to 96" wide. Mail sorters come in two depths: 12 $\frac{3}{4}$ " deep (letter size) and 15 $\frac{3}{4}$ " deep (legal size). Additional charge applies for legal size depth. Our mail sorters feature four different individual shelf widths of 5", 9 $\frac{1}{2}$ ", 11 $\frac{1}{2}$ " and 23". $\frac{1}{2}$ " shelf identification lip is located on front edge of each shelf for easy labeling as well as for added strength. Each pocket or compartment is adjustable in height by $\frac{1}{2}$ " increments.

12" Wide and 15" Wide Standard Metal Lockers from National Mailboxes are incredibly secure, durable, and economical. Lockers are a necessity in schools and locker rooms but also work great in break rooms, employee changing rooms, health clubs, government facilities, or other settings where personal secure storage is needed. Metal Lockers are made of 16 gauge steel which makes them extremely strong and durable providing many years of reliable service. They come in different configurations including 5' or 6' high, and 12", 15", or 18" deep. Lockers are available assembled, or unassembled.

Vented Metal Lockers from National Mailboxes provide visibility and maximum air flow with ample storage space for athletic gear and other items. Lockers are a necessity in schools and locker rooms but also work great in break rooms, employee changing rooms, health clubs, government facilities, or other settings where secure personal storage is needed. Our Lockers are made of 16 gauge steel which makes them extremely strong and durable providing many years of reliable service. They come in different sizes including 5' or 6' high and 12", 15", or 18" deep. They are also available in single tier, double tier, triple tier, and box style configurations.
